

For top roller of ring spinning, roving & cradle.

# All automatic grease lubrication machine

## MH-1001

- Laborsaving for grease lubrication work.
- The life time will be longer with proper quantity of grease.
- Increasing production with keeping best condition of roller.

### Product characteristic

- Full automatic system  
(It can save labor cost)
- High speed lubrication (200sets /10 min )
- Available 26 (OD ) to 34(OD) mm without any adjustment.
- Available 90 to 110 mm length without any adjustment.

### Specification

Power source	100V ※capable of different voltage by transformer.
Dimension	L1,000 X W430 × H980(mm)
Weight	57Kg

※Require compressed air (0.5 – 0.6Mpa)
