For women

Urine collector 'Mr. Urinar'

An easy-to-use, comfortable urinary incontinence device.

1 Insert Mr. Urinar into the fly of your pants.

2 Fasten the top clip to the inside of your pants by clipping it to the fabric.

3 Fasten the bottom clip to the area of the pants near the knee by clipping it to the fabric.

Mr. Urinar

Patent No.4758516, design registration registered

AS-URI01

A strong ally for men who worry about going to the bathroom.

With a few steps, you can easily attach or remove it while still wearing your clothing.

Mr. Urinar can be worn while standing or sitting.

Length : S size/55cm, M size/60cm, L size/65cm Weight (M size) : 150g

Urine collector 'Dandy Urinar'

A wearable urine collector that can be worn to sleep.

Dandy Urinar supports independent urination. Reduces the burden of assistance required for night-time urination.

AS-DUR010

Urine tube : 1.5m Urine collection tank : 2.8L Specialized garter set

Outer receiver

Backflow prevention membrane

Inner receiver

Soft receiver

Packaging

For Restaurants, Supermarkets, Bakeries, Confectionery shops, Meat stores, Industrial factories

Automatic Vacuum Sealer 'HIPPO'

Nozzle type vacuum sealer

Applications : For fresh foods, fruits, vegetables, processed foods, industrial parts, samples

394x266x176mm(15.5x10.5x6.9in) / 100V - 240V 50/60Hz / Seal length: 300mm(11.8in) / Seal width: 5mm(0.19in) / Pump efficiency : -80kPa
Recommended maximum thickness : 90 micron (7 mil) plastic bag (Total 180 micron / flat bag)

HIPPO

One touch fully automatic vacuuming and sealing operations. Packs neatly regardless of the pouch material or the contents. Hippo is able to vacuum and seal even highly moist contents.

AS-V-320

100V/220V

Ultrasonic Sealer

Weld plastic materials at a point by ultrasonic waves simply and safely

Applications : For food packs, clam shell packs, plastic bags, labels, and other plastic materials.

Insert the sealing surface between the teeth and press. The hand piece generates ultrasonic waves and welds by heat in two seconds or less.

You can easily weld plastic materials like a stapler but with no staples.
179x183x66mm / 1.2kg
Oscillation frequency : 57kHz
Max. output : 20W / 100V-240V 50/60Hz / 40VA

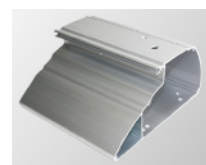

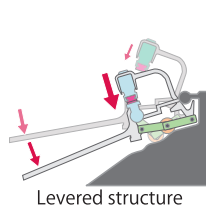

It is possible to seal plastic material by dot-line.
179x183x66mm / 1.2kg
Oscillation frequency : 57kHz
Max. output : 20W / 100V-240V 50/60Hz / 40VA

Table Top Impulse Sealer

Simply apply light pressure to table with both hands to seal tightly.

Ideal for sealing bags that provide protection from light, moisture, discoloration, loss of fragrance and is also perfect for use with silica gel packs. 340x170x300mm / Single : 4.5kg, 580W / Dual : 6.7kg, 1100W

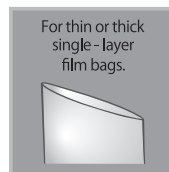

High durability frame

-Sealing length: 300mm(11.8in)
-Sealing width: 5mm (0.197in)

AZ-300S

Single-heating 100V/120V /220V

Heating element is mounted on lower side. This model is suited for non-overlapping plastic bags.

-Sealing length: 300mm(11.8in)
-Sealing width: 8mm (0.315in)

AZ-300W

Dual-heating 100V/120V /220V

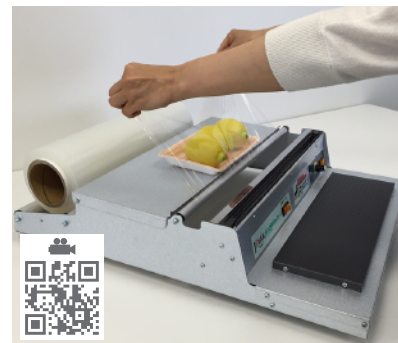

Heating elements are mounted on both sides.

Hand Wrapper 'PEONY'

Easy to use hand wrapper used for packaging food to preserve the freshness

Available in any stretch film

Non stick and durable heat resistant blade

U-450JP

Open type 100V/220V

High Corrosion Resistance : GALVALUME BODY
High energy efficiency : It does not waste electric power and keep target temperature stable.
504x600x131mm / 5.7kg
100V 50/60Hz, 220V 50/60Hz / 165W, 185W
Up to 450mm(17.7in) wide wrapping film

B-450JP

Box type 100V/220V

504x450x200mm / 6.4kg
100V 50/60Hz, 220V 50/60Hz / 165W, 185W
Up to 450mm(17.7in) wide wrapping film

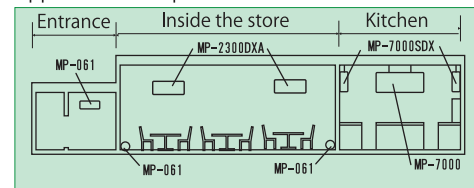

Environmental Hygiene

For food factories, Supermarkets, Hotels, Convenience stores, Industrial factories

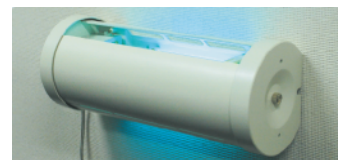

Insect Catching Machine

Catch any small flying insects by glue tape.

Application example : Restaurant

It is possible to select suitable machine according to the purpose of use.

Insect Catching Tape

Keeps its stickiness for more than 3 years in stock, 1 year in use.

AS-6
S-20

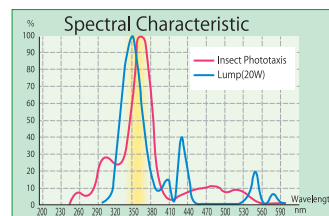

No harmful substances

Insect Luring Light

FL-6BL
FL-20SBL

Lure flying insects by 365nm light effectively.

Food processing

For Restaurants, Supermarkets, Hotels, Fish shops, Food factories

Electric fish scale remover

Proprietary design of rotating blades / Right handed use

10 blades with angles

SALMON SCALER

AST-150

For Supermarkets, Seafood processing plants, Sushi restaurants, bars, and other dining establishments, Hotels, inns, etc.

Safety cover

There is no motor in the grip so you can wash it easily.

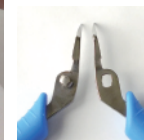

Main unit : 200 x 110 x 150mm / 2.2kg (Handle : 480g)
Flexible shaft length : 1.5m Rotation speed : 0 - 4500 rpm (rotates to the right)

Fish bone tweezer

Comfort grip fish bone tweezers

Fish Bone Tweezer III

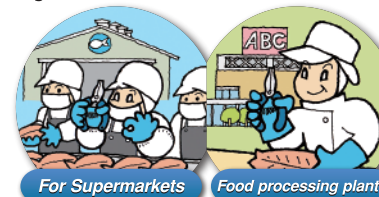

Can be disassembled and cleaned

AS-BR3 CH

Easy to use, tip lets you firmly grip bones and easily remove them!
For the removal of pin bones.
For big or small fish.

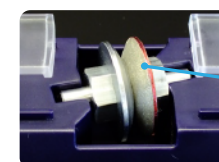

For Supermarkets Food processing plants

Size : 80x126mm Weight : 50g
Material / Tip • Spring : Stainless steel Handle : PP

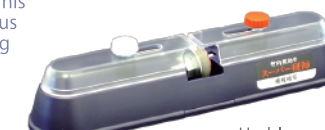

Master at Sanjo, Niigata Prefecture, - Eiji Takeuchi -
He became a pupil of a saw blacksmith when he was 12 years old, and afterward moved to Sanjo, which was famous for cutting tools for the purpose of brushing up his skills. He develops various products after becoming independent.

Japanese craftsmanship

Reproduction of sharpening by a craftsman

Diamond coating whetstone with angled curve shape
Contact with a knife edge at an ideal angle

Usable

Unusable

TOGISHI
-Single-edged -double-edged knives

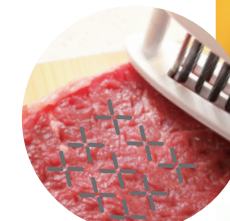

Stainless kitchen knife, Kitchen knife made of iron and steel and so on, can be sharpened
**Do not use this sharpener for a ceramic knife

Improve the taste and tenderness of cuts of meat

The edges of blades are crafted in a 'U' shape. With the blades becoming narrower in the middle, this guarantees to cut through all of the fibres.
