FISHERMAN'S KNOTTER

FEATURES.

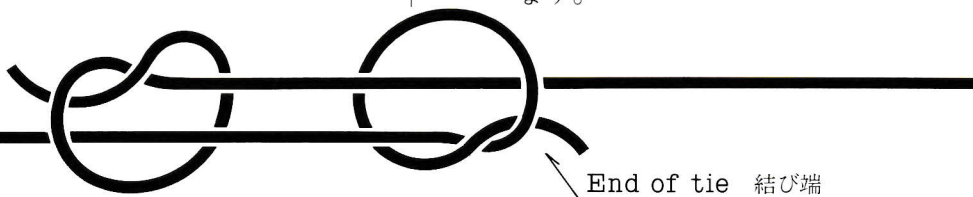

1. No slip-out of thread is caused with gut thing, since the two loops pull each other.
2. The end of the tie is parallel to the direction of the warp as in case of weavers knots, therefore, no problem rises in the process of weaving fabrics.
3. Easy operation

■ The undermentioned types have BELT TYPE & HAND TYPE each

特長

1. テグス結びにて二つのループが引張りあうため、糸抜けが起らない。
2. 結び目の端はハタ結びと同じ様にたて糸にそっていますので製織工程で問題が生じない。
3. 操業習得が容易である。

■ 全機種にベルト式とハンド式があります。
